Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or suggest an anchoring device or cement float to be used in a pipe or casing, comprising at least a radially resilient anchor carriage mounted about a mandrel sized to move through the pipe or casing, interengaging grooves and elongated protrusions formed on the mandrel outer surface and on the anchor carriage inner surface for limiting axial movement of the anchor carriage relative to the mandrel allowing the anchor carriage to compress against the mandrel and remain interengaged and latches into an annular recess of the pipe or casing. .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
